Surat, Gujarat, India

Professional Summary

Computer Engineering undergraduate (CGPA: 8.91) with hands-on experience building full-stack web applications using MERN and Java. Skilled in designing RESTful APIs, implementing CRUD operations, and solving 100+ DSA problems. Seeking Software Engineer opportunities in product-based teams.

Technical Skills

Languages: Java, Python, C, JavaScript

Web Technologies: HTML, CSS, Node.js, Express.js, React.js, MERN Stack, RESTful APIs

Databases: MongoDB, MySQL

Tools & Platforms: Git, VS Code, Postman, Linux (Ubuntu), Windows

Core Concepts: Data Structures & Algorithms (DSA), OOP, MVC Architecture, CRUD Operations, Authentication & Authorization

Projects

Team Management Application | *Java, MySQL, REST APIs* | *Team Lead*

Aug 2025 – Nov 2025

- Designed and developed a Team Management Application to manage team members, tasks, and project progress across 5+ concurrent teams
- Implemented secure authentication and role-based access control to restrict unauthorized access
- Built 10+ RESTful API endpoints to support team creation, task assignment, and status tracking workflows
- Integrated MySQL with an optimized schema, enabling efficient storage and retrieval for 500+ task records
- Led a 4-member team, coordinating reviews and integration to deliver the project on schedule

Wanderlust – Full-Stack Travel Website | *Node.js, Express.js, MongoDB, HTML, CSS, JavaScript*

- Built a full-stack travel website for managing destinations and user-generated content
- Developed backend services in Node.js and Express.js using MVC patterns for maintainable codebase
- Implemented 8+ REST APIs supporting CRUD operations, validation, and robust error handling
- Integrated MongoDB with Mongoose schemas for structured NoSQL data modeling
- Delivered responsive UI with dynamic page rendering using EJS templates

Training

IACE – Gandhinagar

Jan 2026

AI/ML Training Program

5-Day Intensive

- Completed training in Artificial Intelligence and Machine Learning fundamentals, including supervised and unsupervised learning
- Performed data preprocessing in Python using feature scaling, encoding, and cleaning techniques
- Implemented baseline models such as Linear Regression, K-Means, and Decision Trees in hands-on exercises

Education

Government Engineering College, Patan

Expected 2027

B.E. in Computer Engineering – CGPA: 8.91/10.0

GTU

T&TV High School

May 2023

HSC – 68%

GSEB

Sun Shine School

May 2021

SSC – 86%

GSEB

Achievements

- Solved **100+ Data Structures and Algorithms** problems on LeetCode and GeeksforGeeks (Arrays, Strings, Trees, Graphs, Dynamic Programming)
- Maintained **CGPA 8.91/10.0** in Computer Engineering at GEC Patan
- Led a **4-member** development team as Team Lead for an end-to-end web application project

Certifications

- **AI & Machine Learning Training Program** – IACE, Gandhinagar (2026)
